

The page features a light pink background with a faint, repeating pattern of poppies. Four clusters of bright red poppies are positioned at the corners: top-left, top-right, bottom-left, and bottom-right. Each cluster consists of several flowers with dark green centers and black stamens.

Jade's H.A.R.P.

*A multi-agency reflective learning tool kit
for ensuring the right response for parents is
engaged when a sudden and unexpected
death occurs in infancy and childhood.*

In Memory of Jade Louise Scarrott

Jade's H.A.R.P.

A multi-agency tool kit for ensuring the right response for parents is engaged when a sudden and unexpected death occurs in infancy and childhood

What is Jades H.A.R.P.?

Jade's H.A.R.P. is the product of one parents experience of child death within the Coventry, Warwickshire and Solihull region. This toolkit is the learning that came from how to manage child death in the face of a families tragic loss. The toolkit is a legacy to remind multi-agency services that there is only one opportunity to get it right when supporting parents through a child death.

The Basis of Jades H.A.R.P.?

H HISTORY

Family and child history is the first element in a child death. It is better to clarify family history than it is to assume. Knowing the history of a family can dramatically change the way you interact and support them.

A ACKNOWLEDGEMENT

The family is in a state of shock and may not always retain information or know how best to proceed. Check that the family knows what support is available and what will happen next. Acknowledge their concerns and provide support or raise them within the child strategy meeting.

R REFLECTION

Parents are now asked if they wish to contribute to 'Child Death Reviews' as a part of process. This is a chance for us to reflect and learn as much as it is their chance to contribute. When making your contribution to a 'Child Death Review', consider how we can all better the child death process.

P PREVENTION

If things could have been done better or deaths could be prevented or reduced through reflective learning, ensure this learning is shared. Child protection and improving our services is everyone's responsibility.

Toolkit Contents

- 1) **Jade's H.A.R.P. for Professionals in Social Care**
- 2) **Jade's H.A.R.P. for Professionals in the Police**
- 3) **Jade's H.A.R.P. for Professionals in Health**
- 4) **Jade's H.A.R.P. for Professionals in Child Death**

Jade's H.A.R.P.

A multi-agency tool kit for ensuring the right response for parents is engaged when a sudden and unexpected death occurs in infancy and childhood

This form can be downloaded to be used as an anonymised reflective toolkit to self review your personal approach for child deaths. Please complete the form and reflect on your thoughts within your supervision structure to review your practice. Child death is about making every child matter and every family experience thoughtful and professional.

Jade's H.A.R.P. for Professionals in Social Care

H HISTORY

Did we have the right history? Was there anything we were missing? Did you communicate this well with other teams? Did everyone who needed to know get informed?

A ACKNOWLEDGEMENT

Have we considered the way each family member was interacted with? Have we considered the child's wider connections and if further actions need to be undertaken?

R REFLECTION

Was there anything further we could do in the scope of our work? Have all of the planned actions for social care been completed? Is there any learning?

P PREVENTION

Was there anything we could have done differently? Do we need to share team learning? DO we need to share any preventative work with CDOP or commissioning?

*You're truly one of a kind
As gentle as they come
As kind and as thoughtful
But just as fearless and strong*

Jade, aged 14, A special child of Warwickshire

*In the hearts that you have warmed
In the frowns that you have raised
In the cloudy days you have made shine
In the path you have left behind*

*With everyone you know
And everone you've touched
In all yesterdays and tomorrows
They remember you with love*

*Love is your light, in a dark place
Courage is your power in a strange case
And the sun shines because you smile
But it also rains when you cry*

Jade, aged 14, A special child of Warwickshire
