

Professional Curiosity

Why do I need to be more curious? Because effective communication and challenge helps us to safeguard children. How can I be more curious? The session will cover how we communicate with children, their families, and other professionals to really explore and understand a child's lived experience. It is about asking more questions and using challenge. It is about understanding your own responsibility and knowing when to act, avoiding assumptions and not taking things at face value. The session aims to help you become a more curious and effective practitioner.

WHO IS THE TRAINING AIMED AT?

- Any professional involved in safeguarding work with children and families
