

# **Warwickshire Prevent Action Plan**

## **2015 – 2018**

**VERSION 1.0 NOVEMBER 2015**

## Introduction

Warwickshire is a relatively safe place to live and most crime types are continuing to reduce. However, we also live in a global community which means we are affected by trends and events that occur at the international level. At present, we need to consider the international threat of terrorism and those people who are pulled into groups that support extremist causes.

In Warwickshire, authorities and communities are working together to deliver the Government's **Prevent Strategy**. Prevent is one of four objectives which make up the Government's Strategy for Countering Terrorism – **CONTEST** – with the other objectives being Pursue, Protect and Prepare.

The Prevent Strategy has three key objectives:

1. Respond to the ideological challenge of terrorism and the threat we face from those who promote it;
2. Prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support; and
3. Work with sectors and institutions where there are risks of radicalisation which we need to address.

It is set up to challenge all forms of terrorism, including the influence of far right extremists. It defines extremism as “vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs”.

Prevent operates in a pre-criminal space, providing support and re-direction to vulnerable individuals at risk of being groomed into terrorist activities before any crimes are committed. Radicalisation could be comparable to other forms of harm and abuse. We therefore consider it a safeguarding issue which needs to be thought of alongside the wider safeguarding agenda.

International terrorism and a home grown terrorist threat have meant an increased role for policing in recent years. This has led to some in our communities feeling uncomfortable with a sense of being under scrutiny. The perception from some is that there is a focus on Muslim communities as a whole rather than on the very small numbers that support an extremist ideology. It is essential that Prevent work in Warwickshire does not stereotype communities and takes measures to counter this. It is important to have and maintain communication across communities and to make this work accountable to people within them.

To be successful in eliminating the threat from violent extremism we need to build trust with our communities and work in partnership with them. Our communities already do much to challenge and reduce the influence of extremists. Our role will be to continue to support and complement this role empowering those at risk to make positive life choices.

## **New Statutory Responsibilities**

### **Prevent Duty**

The **Counter Terrorism and Security Act 2015** introduced a new Prevent Duty for specified authorities which means they must have “due regard to the need to prevent people from being drawn into terrorism” in the exercise of their functions. The Duty applies to local authorities at the county and district/borough level, schools, colleges and universities, health and social care, criminal justice, and the police. Information about who the specified authorities are in Warwickshire is available at Appendix A.

Home Office guidance on the Duty states that for all specified authorities those in leadership positions are expected to:

- Establish or use existing mechanisms for understanding the risk of radicalisation
- Ensure staff understand the risk and build the capabilities to deal with it
- Communicate and promote the importance of the duty
- Ensure staff implement the duty effectively

The full guidance document is available at:

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/417943/Prevent\\_Duty\\_Guidance\\_England\\_Wales.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/417943/Prevent_Duty_Guidance_England_Wales.pdf)

Whilst each specified authority has this new Duty, the guidance does not expect organisations and institutions to tackle the issue alone. It clearly states that Prevent work depends on effective partnership working and expects coordination of this activity through a multi-agency forum.

This Action Plan is indeed the product of a multi-agency forum – the **Warwickshire Prevent Working Group**. It is a partnership document signed up to and supported by all of the specified authorities within Warwickshire. It aims to bring all Prevent work together into one place to ensure a strategic and coordinated approach which maximises the use of available resources in tackling the issue. It is designed to be a high level document which meets the broad needs of the specified authorities. Specified authorities are expected to have their own local delivery plans which complement the wider county approach.

## **Channel Duty**

In addition to the Prevent duty, the Counter-Terrorism and Security Act 2015 also introduced a new duty for local authorities to provide support for people vulnerable to being drawn into terrorism. In England and Wales, this is done through Channel Panels. Warwickshire already has an established **Channel Panel** but will review its arrangements to ensure it meets the new duty. More information on the Channel Duty is available here:

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/425189/Channel\\_Duty\\_Guidance\\_April\\_2015.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/425189/Channel_Duty_Guidance_April_2015.pdf)

## **Plan Key Principles and Values**

The Action Plan is designed and will be delivered under the following principles:

- Communities are key to preventing terrorism and central to the successful delivery of the Action Plan
- Prevent is everyone's business and therefore awareness will be mandatory for all specified authorities, including their commissioned services
- Actions taken will always be proportionate to the risk identified for Warwickshire
- Warwickshire specified authorities and the wider Warwickshire community will work effectively together through the Prevent Working Group to deliver the Action Plan, with local delivery arrangements in place where appropriate and proportionate
- Prevent is part of the wider safeguarding agenda and thus will focus on providing support and re-direction to vulnerable individuals at risk of being drawn into terrorism from an early stage

## Governance and Monitoring

### Warwickshire Prevent Working Group

This Action Plan has been developed and will be delivered by the Warwickshire Prevent Working Group. This is a multi-agency partnership group currently comprising representatives from the following agencies:

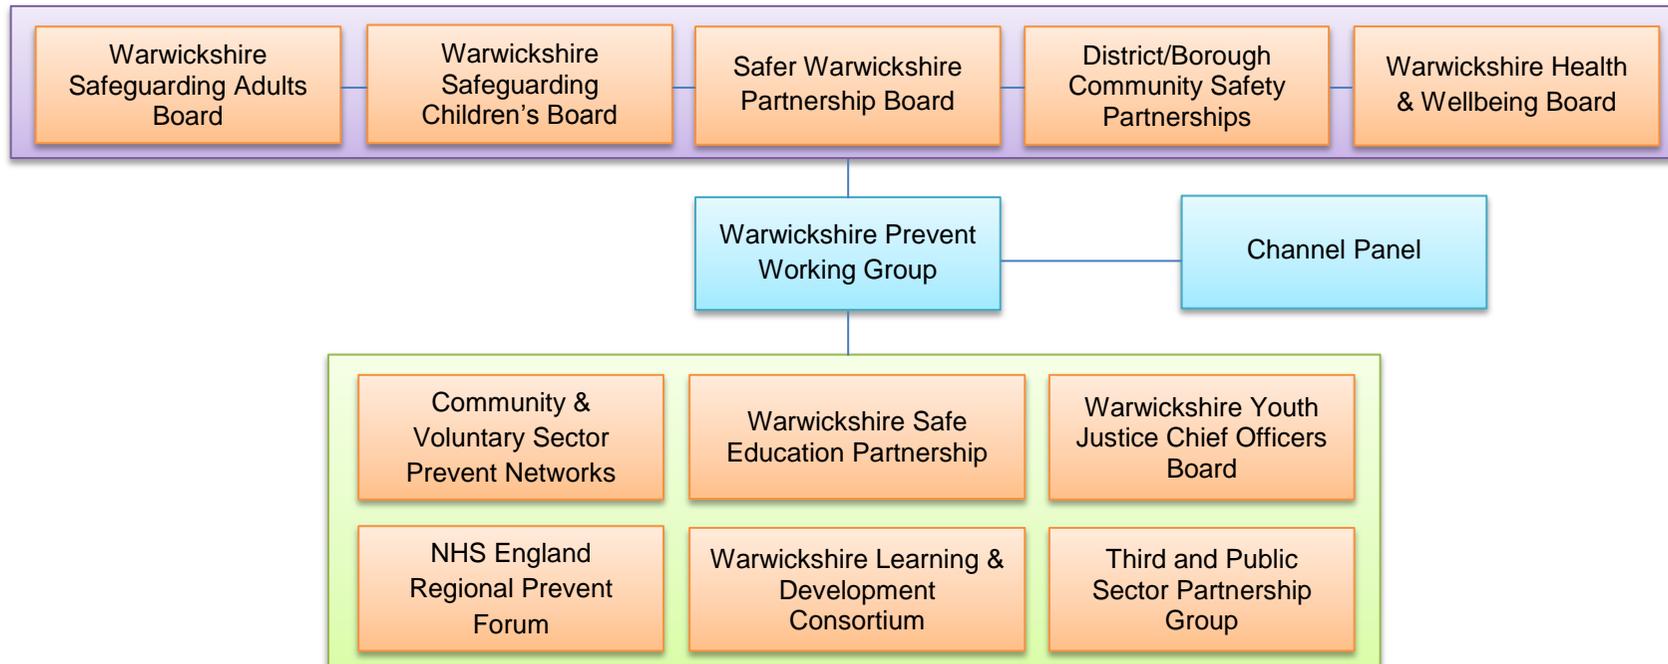

Warwickshire and West Mercia Police Prevent Team	Warwickshire's five District and Borough Councils
Warwickshire County Council: <ul style="list-style-type: none"> <li>• Localities &amp; Community Safety</li> <li>• Priority Families</li> <li>• Public Health</li> <li>• Early Help and Targeted Support</li> <li>• Mental Health</li> <li>• Education Safeguarding</li> <li>• Fire &amp; Rescue Service</li> </ul>	Health: <ul style="list-style-type: none"> <li>• Coventry and Warwickshire Partnership Trust</li> <li>• Coventry and Rugby CCG</li> <li>• Warwickshire North CCG</li> <li>• South Warwickshire CCG</li> <li>• University Hospitals Coventry &amp; Warwickshire NHS Trust</li> <li>• South Warwickshire NHS Foundation Trust</li> <li>• George Eliot Hospital NHS Trust</li> </ul>
Warwickshire Youth Justice & Family Intervention Service	Warwickshire & West Mercia Community Rehabilitation Company
Warwickshire Race Equality Partnership	National Probation Service
Warwick District Faiths Forum	Warwickshire Police and Crime Commissioner
Warwickshire CAVA	

A key action identified with the plan is to review the membership of the Prevent Working Group to ensure that the community and voluntary sector and all of the specified authorities are appropriately represented.

The Prevent Working Group is coordinated by the Warwickshire County Council Community Safety and Substance Misuse Team and meets quarterly. It will be responsible for monitoring progress against the Action Plan and identifying mitigating actions where outcomes are not being achieved.

The partnership landscape within which the Prevent Working Group exists is vast, reflecting the cross cutting nature of the issue. The following diagram identifies the main bodies and groups to which the Prevent Working Group will report and communicate with to support delivery of the Action Plan:

**Figure 1: Prevent Governance & Partnership Links**

Prevent is a safeguarding issue and therefore the Prevent Working Group has a line of accountability to the Warwickshire Safeguarding Adults and Children's Boards allowing those members to have reassurance of the work ongoing and input to the further development of Prevent work.

## **Channel Panel**

Warwickshire already has an established **Channel Panel**. This meets as required in a secure environment to discuss cases of concern. It reports into the Prevent Working Group and is chaired by Warwickshire County Council with referrals and information for the Panel coordinated by the Warwickshire and West Mercia Police Prevent Team. Membership of the Panel is multi-agency ensuring that individuals have access to a wide range of support and diversionary activities including access to education, housing and employment.

The Channel Panel is linked into Warwickshire's wider safeguarding procedures, which should still be followed when concerns about an individual are identified. The role of the Panel is to review referred cases, assess the nature and extent of the identified risk; and develop the most appropriate support plan for the individuals concerned. Channel is about partnerships and communities working together to support vulnerable people at an early stage, it is not about reporting on individuals in order to prosecute them.

Since 2014, 4 cases have been supported through the panel (correct as of July 2015). Through delivery of the Action Plan we would expect this to increase.

## **Prevent Awareness, Learning and Development**

Warwickshire has made good progress to establish learning and development packages which raise awareness of Prevent. An e-learning package is currently available at [warwickshire.learningpool.com](http://warwickshire.learningpool.com) to staff across all statutory, voluntary and private sector services as well as individuals within the community. To date, 844 people have accessed this course (as of November 2015). The WRAP (Workshop to Raise Awareness of Prevent) package is also available for those that require the next level of awareness training as well as train the trainer courses for Prevent leads.

In Warwickshire's schools, the Education Safeguarding Service has worked with the Police Prevent Team to convene 8 WRAP train the trainer sessions specifically for school designated safeguarding leads to equip them to deliver the WRAP course to staff. Prevent is viewed as part of schools' wider safeguarding responsibilities and therefore features within training for designated safeguarding leads and covered within whole school safeguarding training programmes.

In the NHS, a Prevent training and competencies framework has been developed providing clarity on the level of training required for health workers and ensuring a consistent approach across this particular sector. Clinical Commissioning Groups are tasked with monitoring this, with providers required to submit information on the training undertaken each quarter.

The Action Plan seeks to build on this work and in particular develop a Warwickshire Prevent Learning and Development Competency Framework to provide clarity on what is expected across the Specified Authorities at the local level. The following diagram identifies the broad expectations which will form the basis of this work:

**Figure 2: Warwickshire Prevent Learning & Development Framework**

## Interdependencies with Other Work

Prevent work in Warwickshire cross cuts a number of other strategies, plans and programmes of activity including the following:

- Safeguarding plans of both the adult and children's safeguarding boards
- Warwickshire Hate Crime Action Plan 2015-16
- Warwickshire Priority Families Programme Phase 2
- Warwickshire Health and Wellbeing Strategy 2014-2018
- Work to tackle Child Sexual Exploitation
- Development of the Warwickshire Multi-Agency Safeguarding Hub
- Work to tackle [serious and organised crime](#)

The Action Plan does not intend to duplicate work being led by others but to bring together work across all sectors on the issue of Prevent into one cohesive, coordinated statement.

## Equality Impact Assessment

An Equality Impact Assessment is currently being progressed and will be finalised following approval of the Action Plan by the Prevent Working Group

## Website

Information about Prevent work in Warwickshire is held on [www.safeinwarwickshire.com/prevent](http://www.safeinwarwickshire.com/prevent). This will be developed as a hub for all Prevent resources as identified within the Action Plan.

## Action Plan 2015 – 2018

The Warwickshire Prevent Action Plan has been designed to support the national strategy objectives of:

1. Respond to the ideological challenge of terrorism and the threat we face from those who promote it;
2. Prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support; and
3. Work with sectors and institutions where there are risks of radicalisation which we need to address.

The work we have identified cross cuts all of these objectives and so our design takes an approach based around key pieces of work that we have identified as essential in delivering this agenda. The following work themes were born out of a multi-agency Prevent Refresh event held on 12<sup>th</sup> May 2015:

1. Community and voluntary sector engagement – to prevent and challenge extremist narrative and behaviour from within communities themselves
2. Leadership, governance and accountability – to ensure strong, coordinated community and partnership action which is accountable to the local community
3. Awareness, learning and development – across all sectors, public, private, community and voluntary
4. Safe education – in early years, schools, colleges and universities
5. Support – establish appropriate support for those identified as vulnerable and their families
6. Intelligence and communications – mechanisms to monitor local community tensions, identify vulnerable individuals and communicate Prevent activity across Warwickshire agencies and communities

Many of the actions are to be led by a 'Prevent Officer. This is a proposed new post that is identified as needed in order to facilitate delivery of the Action Plan and establish the Prevent infrastructure across Warwickshire. It is proposed that the role is hosted within Warwickshire County Council.

A list of the acronyms used in the Action Plan is available at **Appendix B**.
